

# City Photography Workshops

## Course of events

We meet at the scheduled start time of the event. Various aspects of photo composition and photography, especially for city photography, will be discussed.

## Skill level

All events are open to all photographers who are interested in expanding their photography skills.

## Camera required

Best a system- or mirrored reflex camera with interchangeable lenses where the ISO, aperture and shutter speed can be set manually. If you have it, you should bring your camera manual.  
Contact me if you need to rent a camera, lens or tripod.

## Meeting point

Check the workshop descriptions below.
